

The Centers for Medicare and Medicaid Services published its final rule for replacing the home health Medicare Prospective Payment System (PPS) with the Patient-Driven Groupings Model (PDGM) effective January 1, 2020.

PDGM requires claims to be paid based on 30-day payment periods instead of 60-day episodes. The data below was published by CMS to help home health agencies estimate the number of payment periods and corresponding payment change under PDGM compared to PPS. All data other than the number of agencies has been rounded to the nearest thousand.

Note: The data below **does not** account for a proposed reduction of 6.42% in 2020 payment rates for "behavioral adjustments."
